

## **Pursuit Vascular Announces Attendance at Renal Physicians Association 2019 Annual Meeting**

Maple Grove, Minn. March 25, 2019/PRNewswire—Pursuit Vascular, Inc., manufacturer of ClearGuard® HD Antimicrobial Barrier Caps, today announced it will be exhibiting at the Renal Physicians Association 2019 Annual Meeting in Chicago, March 28-30, 2019.

Established in 1973, the Renal Physicians Association (RPA) is a non-profit national nephrology specialty medical association with more than 3,500 members serving kidney patients nationwide. Their members encompass a variety of nephrology healthcare providers involved in the practice of medicine, teaching, research and administration and are devoted to improving care of patients with kidney disease.

As a Gold Level Corporate Patron, Pursuit Vascular will be exhibiting at booth #305 and will be promoting the company's ClearGuard HD caps, the first and only device available in the US designed to kill infection-causing microorganisms inside a hemodialysis catheter hub. ClearGuard HD caps have been proven to reduce bloodstream infections by ~70% in hemodialysis catheter patients.

### **About Pursuit Vascular**
